December RV Product of the Month – Magma Nesting Cookware

December 1, 2010 by [Good Sam Club](#) – [1 Comment](#)

If all of your pots and pans took up the same amount of space as just one pot, imagine what you could do with all that extra cabinet space. Magma Nesting Cookware is the answer to RVers starving for extra space in their galleys. The 10-piece, 18/10 stainless-steel nesting cookware set is available in a DuPont Teflon Select nonstick finish or plain stainless steel, and includes 3-, 2-, and 1-1/2-quart saucepans, a lid that fits all three, a 5-quart stockpot, a 9-1/2-inch sauté pan and a lid that fits the latter two.

John Maier and Donna Ochs, Good Sam product testers from Delhi, New York, cooked up a meal with the cookware set and say, "In a word, it's excellent-particularly the thick bottoms of the pans, which provide even heat."

PRICE: From \$179.99
