

LOW PRESSURE GAS REQUIREMENTS FOR MAGMA[®] GRILLS

PROPANE

The Standard or Optimal Gas Pressure required is:

11.0 Inches of Water Column (WC or IWC)
0.396 Pound per Square Inch (PSI)
27.303 Millibar (mb)

The Minimum Gas Pressure Required for Acceptable Performance is:

10.0 Inches of Water Column (WC or IWC)
0.360 Pound per Square Inch (PSI)
24.821 Millibar (mb)

NATURAL GAS

The Standard or Optimal Gas Pressure required is:

7.0 Inches of Water Column (WC or IWC)
0.252 Pound per Square Inch (PSI)
17.375 Millibar (mb)

The Minimum Gas Pressure Required for Acceptable Performance is:

5.0 Inches of Water Column (WC or IWC)
0.180 Pound per Square Inch (PSI)
12.411 Millibar (mb)
