

MAGMA SWEEPS TOP AWARDS IN PRACTICAL SAILOR NESTABLE COOKWARE CATEGORY

Both of Magma's 10-Piece Nesting Cookware Sets, the Stainless Steel and the Stainless Steel with DuPont Teflon Select Non-Stick models, have swept the "Best Choice" awards in the Nesting Cookware Category in *Practical Sailor Magazine*. *Practical Sailor* is known for its nonpartisan independent testing of marine products. "Best Choice" is their highest award.

The results of the comprehensive test appeared in the April 2009 issue. A variety of top selling, nesting cookware brands were tested.

Magma's 10-Piece Professional Series Cookware Sets were the only sets to receive "across-the-board" scores of "Excellent" in all areas tested including performance, construction materials,

handle construction, ergonomics, storage accessories, storage space, resistance to corrosion, rattling while underway, ease of cleaning, price, and warranty. All brands were testing in on-board galleys and in on-shore kitchens under a variety of conditions.

Magma received top marks in part because of its high quality 18-10 polished stainless steel construction that includes triple-clad bottoms of sandwiched stainless steel, aluminum, and stainless steel. These bottoms are milled perfectly flat for use with gas, electric, or electric glass cook tops. Coming under particular praise by *Practical Sailor* was Magma's removable handle design which operated smoothly, and easily, and fit securely to the cookware while still being removable with just one hand.

Magma's Nesting Cookware Sets are available in Stainless Steel finish or in Stainless Steel with DuPont Teflon Select® Non-Stick Coatings which is designed for "durable" use and ease of clean-up.

Magma's 10-Piece Nesting Cookware Sets include a 5-Quart Stock Pot, a 10-inch Sauté Pan, a 1 1/2-Quart Sauce Pan, a 2-Quart Sauce Pan, a 3-Quart Sauce Pan, a lid that fits all of the Sauce Pans, a 10-Inch Lid that fits the Stock Pot or Sauté Pan, Two Removable Handles and a unique Bungee Cord designed to permits rattle free storage. The entire set nests for storage in less than ½ cubic foot of cabinet space. Any component of the cookware sets may also be purchased separately. Magma's Nesting Cookware Sets retail from \$142.

Magma Products is the world's largest manufacturer of all-stainless steel grills and the only major supplier of US-made onboard boat grills. Magma's product line includes onboard boat grills, residential stainless steel grills, stainless steel cookware, grilling accessories, on-board bait and filet tables, propane accessories, boat umbrellas, and boat stabilizers.
